## What is Streetlight Canada?

Streetlight Canada (SLCA) is a non-profit organization that helps to raise awareness and funds for underprivileged children in the Philippines.

Our parent organization, Streetlight Philippines, aims to help these children by hosting a variety of programs. Examples of the aid Streetlight provides includes:

- A shelter for orphaned or abandoned boys; Streetlight takes them into a caring environment where they live and are given the opportunity to attend school.
- A community Study and Development Centre where children are sponsored to attend school and are given a place to complete homework and be tutored afterwards.
- A meal program where the children are fed both breakfast and lunch to ensure they are receiving proper nutrition and are able to focus on school, not their hunger.
- Working with community families to help them obtain jobs and get back on their feet.

Streetlight Canada assists in all these endeavors by fundraising throughout the year, sponsoring some of the children and forming new initiatives. We also send volunteers overseas every summer to lend a helping hand!

This year we are assisting Streetlight in building a completely new site. The new location will allow an additional 50+ children will be helped.
